ResourceSmart for Nonprofits

ResourceSmart for Nonprofits, is an energy efficiency improvement program that provides energy efficiency upgrades to nonprofit organizations across Colorado.

Designed as an all-encompassing approach to energy efficiency improvements, ResourceSmart for Nonprofits manages every step of the process, including conducting energy assessments of the property provided by iCAST, access to low-cost loans, and project quality control throughout the duration of the project.

The program also provides rebates, incentives, and savings packages to help nonprofits see actual cost savings from day one!

PROGRAM PROCESS:

1. Schedule your energy assessment
2. An energy assessor will conduct a comprehensive analysis of your facility
3. You will receive a detailed report with costs, savings, and payback details
4. Apply to Funding Partners for financing
5. iCAST will oversee all work and perform quality checks
6. Watch your savings grow year after year!

ELIGIBILITY REQUIREMENTS:

- Nonprofits including: community facilities, social service organizations, charter schools, etc.
- Meet additional underwriting criteria of ResourceSmart for Nonprofits:

Community Impact	Organizational Capacity
Financial Viability	Energy Efficiency Assessment
- Available throughout Colorado
